

# Don't Rock the Boat

For 2-4 Players

Ages 5 and Up

## CONTENTS:

- Ship with 3 Masts
- 2 Piece Water Wave
- 16 Pirate Penguins

## OBJECT OF THE GAME:

Balance your Pirate Penguins on the ship without making it tip!

## SET UP

- Put the Wave pieces together and place on a flat playing surface.
- Snap the Masts into place.
- Balance the assembled ship on the wave.
- Each player takes four Pirate Penguins.
- If playing with two players, each player should take eight Pirate Penguins. If playing with three players, you should each take five Pirate penguins and set the remaining one aside.

## PLAY

- The youngest player goes first. Place one of your Penguins on the ship – be careful not to upset the balance. You want your Penguin to stay on, not fall off. When you put a Penguin on the board, you must stand him up – no lying down on the job, matey!
- Moving to the left, each player takes turns putting one Penguin on the ship at a time. You may place your Penguins wherever you want on the ship – just 'Don't Rock the Boat'!
- When someone rocks the boat and one or more penguins fall overboard, that ends the game. Note: If Penguins fall down, but not overboard, keep playing. Only a Penguin falling off of the ship ends the game.

## WINNING

The last player who set a Pirate Penguin aboard the ship before the player who rocked the boat is the winner! Celebrate in your best pirate voice and play again, matey!
